

PRESSURE CLEANERS

Made in Australia SINCE 1982

HC12-180P

Cold Water Cleaner

Specifications

- ⇒ 180 bar (2610 psi) pump pressure
- ⇒ 255 bar (3698 psi) EWP pressure (optional)
- ⇒ 12 Litres Per Minute pump volume
- ⇒ 6.5 hp Honda petrol motor
- ⇒ 3600 rpm pump
- ⇒ Medium duty machine

Standard Equipment

- ⇒ 8 Metres high pressure hose
- ⇒ Insulated on/off pistol assembly
- ⇒ Single lance assembly
- ⇒ High and Low pressure mode
- ⇒ Adjustable chemical injector with bottle
- ⇒ Operating and Maintenance manual

Features

Interpump with ceramic pistons

Inlet water filter

Pressure gauge

3 Stage powder coated zinc annealed frame with 2 pneumatic wheels and rubber foot

Thermal Dump Valve Protection

Benefits

Non-corrosive pump head to extend pump life and reduced maintenance costs

Stops debris from scoring pistons and seals

Easily monitor pump performance

Resistant to corrosion and greater manoeuvrability over tough terrain

Protects pump from overheating when in bypass
